

Deloitte.

Connecting you with your future

What impact will you make?

Apply to our
Tax INTERNSHIP Program

Tax INTERNSHIP Program

We're a new generation of tax consultants who mash up strategy, technology, compliance and tax advisory in one place, in order to identify where businesses and organizations need to be & then get them there. Fast.

Come to our Tax team if

- You are 3rd year student or Master's student in Economics and related fields, who is smart and eager to learn and develop
- You have very good analytical skills and business awareness
- You know how to solve problems, have initiative and curiosity
- You have good Romanian and English commands
- Multitasking is in your nature and you know how to prioritize
- You have entrepreneurial spirit (working alone comes easy), but you are also a very good team player

Your future role

- Be included in one of the 6 teams of tax consultants (Transfer Pricing, GES, Corporate Income Tax, Indirect Tax (VAT), Mergers & Acquisitions and Business Process Solutions) and gradually specialize in specific tax issues
- Participate in our [Tax Student Academy](#) and get in-depth exposure to the tax fields and learn more about the day-to-day responsibilities of a tax consultant through interactive workshops
- Use Deloitte standard methodologies and knowledge management resources
- Assist in drafting letters for clients, summarizing facts, analyses and specified solutions

What we offer

It's your career, your life and your choice. Deloitte is ready to give you the opportunity to work with some of the best and explore what works for you through a variety of experiences offering you:

- Strong investment in your career and constant learning opportunities
- Insightful onboarding process
- Exposure to diverse industries and businesses
- Part-time job of 6h (determined period March-July) and a friendly team
- Opportunity to work under the guidance of more experienced colleagues (managers, senior consultants)

We give you the premises to achieve your full potential. Start here and explore how far you can go!
