

Boost your employability with free training and certification.

October 13th, 20th, 27th, 29th
November 1st, 3rd, 15th, 22nd

Don't miss out on this exclusive, time-limited training opportunity. **The Microsoft Fundamentals Courses** will:

- Provide you with skills aligned to relevant industry job roles.
- Help you achieve learning and career objectives.
- Boost your employability with a free certification in real-world skills.

Join us and make the most of this professional-level training on Microsoft Fundamentals, **100% free for students and delivered live by expert instructors.**

Gain valuable knowledge within the field of Data Science, Security, Azure and Power Platform that will make you stand out and take the **Fundamentals exams** to get certified by Microsoft, all free of charge.

The instructor-led course starts with a day-long live event. Then, you will receive an email with:

- A self-study **resource pack**.
- Instructions to activate **\$100 of Azure credit** to gain experience on Azure services.
- A **MeasureUp Practice Test** so that you are 'exam ready', and details on how to book your exam.*
- The exam will be free and included in the course.

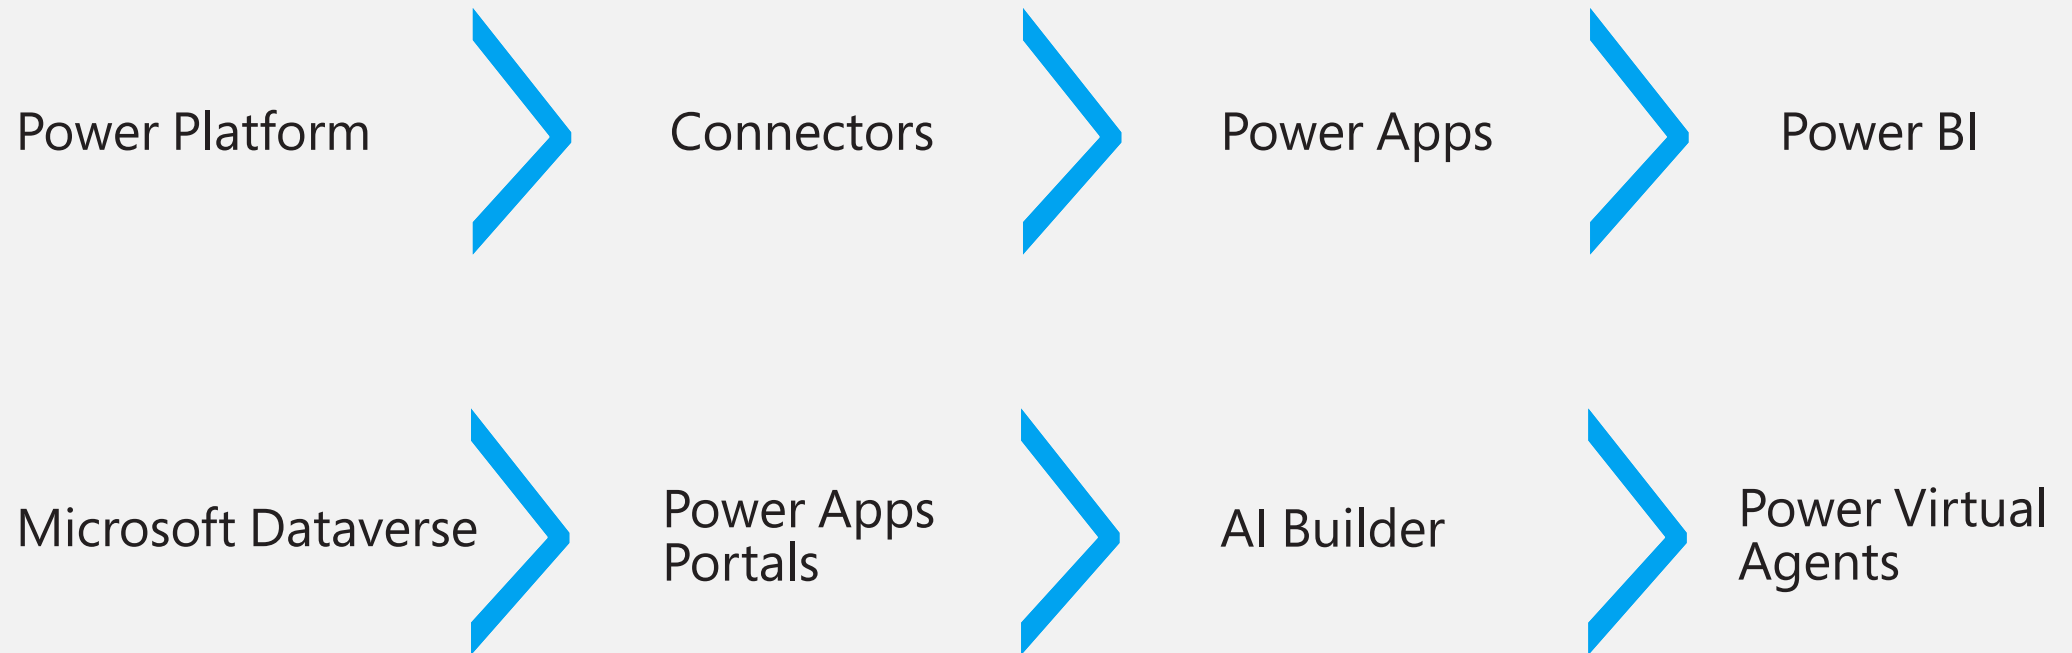

*To be taken within 21 days of attending the webinar using our Certiport 'Exams at Home' platform.
